

Sound Without A Name

Darren Styles

I live for a feeling
A sound that I'm hearing
It gives my existence
A reason I am without
I'd stay for a lifetime
I'd give more than my right
To be free together
So we could live forever (3x)
(Forever (2x))

Look around tonight
And see the distant night
Riding on the waves
The sound that it creates
The melody has come
To capture everyone
It makes us all the same
The sound without a name (without a name) (4x))
(2x)

We could live forever (8x)

Feels like it's with us
The life making me rush
So [...] in my body
[...] upon me
I'd stay for a lifetime
I'd give more than my right
To be free together
So we could live forever (4x)

Look around tonight
And see the distant night
Riding on the waves
The sound that it creates
The melody has come
To capture everyone
It makes us all the same
The sound without a name (without a name) (4x))
(2x)
