

Best Of Both Worlds

Darryl Worley

She's too complicated to ever be described
She's kinda like an angel with a wild side

Free she sets me free
If this is tied down it's where I wanna be
She's my friend and my lover
That's my girl
I've got the best of both worlds

Free she sets me free
If this is tied down it's where I wanna be
She's my friend and my lover
That's my girl
I've got the best of both worlds

Look at that body would you look at those eyes
She'll be everything I dream of when she loves me tonight

Free she sets me free
If this is tied down it's where I wanna be
She's my friend and my lover
That's my girl
I've got the best of both worlds

She's always gonna be there when I have a bad day
She knows how to listen knows just what to say
But there's something 'bout her touch that takes the world away
When she says nothing at all

Free she sets me free
If this is tied down it's where I wanna be
She's my friend and my lover
That's my girl
I've got the best of both worlds
