

# Opportunity Of A Lifetime

Darryl Worley

Big brown eyes, soft red lips  
I'm thinkin' I could get used to this  
This could be the opportunity of a lifetime

My heart melts when you whisper my name  
I've got a feeling if you're feeling the same  
This could be the opportunity of a lifetime

I don't need to travel the world  
Chase after rainbows, I'm telling you girl  
There's so many things that I'd rather do  
Like wakin' up each morning with you

We've got a chance at a real true love  
We'd have to be crazy to pass it up  
This could be the opportunity of a lifetime

I can just see us sittin' there  
Front porch swing with gray in our hair  
I know it seems like a lifetime away  
But we could get started today

We've got a chance at a real true love  
We'd have to be crazy to pass it up  
This could be the opportunity of a lifetime  
Oh yes-sir-ee, this could be  
The opportunity of a lifetime
