

Spread A Little Love Around

Darryl Worley

Sometimes this crazy world can make us all feel bad
I sit and watch the news and just get mad
We need to stop and smell the roses in the ground
So get out today
Spread a little love around

Talk to a neighbor
Volunteer a favor
Help out a stranger when his car's broke down
Take your wife a kissin'
When your kids talk - listen
It makes a lovely sound
Spread a little love around

You know it don't take too much to make somebody's day
A kind word or tender touch goes a long way
We can change the whole world if we start in our hometown
So get out today
Spread a little love around

Tell your mom you love her
Bear hug your brother
Treat your sister to a night out on the town
Throw the ball for Rover
Wrestle in the clover
Put a smile on that old hound
Spread a little love around

Slap your sweetheart's fanny
Tickle on old granny
Dance with the kids and act like a clown
A little tiny kiss and hug
Everybody needs that stuff
Turn a frown upside down
Spread a little love around

When this world gets you down
Spread a little love around
