

## Stars (Here with Me)

Darude

I can see the stars of the future  
In front of our eyes and  
I don't feel the pain no more  
It's easy to believe in tomorrow  
When you're here with me  
And all we got  
Is the feeling so pure

I just don't believe  
In everything I see  
I don't believe  
All the pictures on the TV screen

But I have a dream,  
I got this beautiful dream  
So come and take my hand girl  
And you will see

Now I want to believe  
That this is more than a dream  
This is more than a picture  
On a TV screen
