

The Suicide Song

Darwin Deez

From the window ledge I fall
Watch my necktie whip back in the wind
From the top of an office building
I can't even see why I should live

"But don't give up", they all say
But I'm not giving up anything anyway

On the way down I see your face
It's laughing at one of my idiot boy mistakes

Oh you can laugh now cause it's over
Have one last laugh watching me go to waste

Cause I don't need a reason why
Does anyone?
