

# Money Changes Everything

Daryl Hall

Ever growing  
The dreams that we accumulated  
Never knowing  
The demons that we created  
Villans stole the spotlight  
While love was waiting in the wings  
Left us with a long night  
And a hunger for material things  
But when it's gone, gone baby  
And we're livin' with ourselves again  
Will it dawn on us darling  
That the love we had is worth more  
than we spend

Money changes everything  
I'll turn your world around so fast  
Money changes everything  
Money  
Money changes everything  
No one questions how long  
it will last  
Money changes everything  
Money

Sorry baby  
I was a stranger to myself  
sometimes  
No excuses  
The best intentions come  
tumblin' down  
When it's gone, baby  
Will it be the way it was before?  
When it's gone, gone darlin'  
Will we realize what the money  
was for?

Money changes everything  
I'll turn your world around so fast  
Money changes everything  
Money  
Money changes everything  
No one questions how long  
it will last  
Money changes everything  
Money

Love  
Does it feel like it did?  
Money changes everything
