

# Send Me

Daryl Hall

Cafe cats are waiting  
Loves anticipating  
Coffee steaming on a rainy day  
Couldn't stay at home  
All those souls alone  
Dropping by and looking for  
another taste  
See you smiling from across the bar  
Take a little wine - have a good time  
Let's see  
Are you waiting for the night  
to start  
Baby I'll come around if you're  
here for me  
You're so lovely  
So lovely  
Let me know if you want me  
Baby come on

Send me the night  
Send me what's right  
Send me your guiding light  
Send me the love  
Send me your groove  
Send me your velvet mood  
Send me smooth  
Send me your love

Maybe love's in bloom  
Like an old sly tune  
We can spin the words  
around the moon  
Mind and body met  
Heaven starts to sweat  
Ecstasy forgets about staying cool  
Not just one more night out  
on the town  
Breaking down  
All that's gone before  
Feeling things I thought were  
long passe  
Coming around again  
Coming on today  
Baby nothing ventured  
nothing learned  
There's no way to fake it  
Baby can we take it

Send me the night  
Send me what's right  
Send me your guiding light  
Send me the love  
Send me your groove  
Send me your velvet mood  
Send me smooth  
Send me your love  
Send me your kiss

Send me another wish  
Send me this  
Send me your love  
Send me your smile  
Send me just an ounce of style  
Send me baby send  
Send me your love

Maybe this is how we're  
meant to stay  
I won't stop until you  
I won't drop until you  
Make me make me  
Baby baby baby baby  
Send me
