

## Everybody's Cool

Daryll-Ann

Hide away your love in anger  
Low esteem without a warning  
Kill the weak for worse for better  
Till the morning comes around

She built the wall till no one's there  
When everywhere there's anger  
There's no one really there  
Always on the losing end  
Everyone's enacted from the start

Ride a wave one to remember  
Rock the reef for such a long time  
Catch the ride until September  
Guard your gracious life

She built a wall what else is new  
Where everyone's an actor  
And everybody's cool  
She's always on the losing end  
Everyone's enacted from the start

She missed the ball what else is new  
When everywhere there's anger  
She's desperatly uncool  
And always on the losing end  
Everyone's enacted from the start  
(And everyone is at the superstar)  
Everyone's enacted from the start
