

My Only World

Daryll-Ann

My world is the only one I know
Your country is far from mine
There's water outside a dozen cans
This water has gone too far
There's water outside a dozen cans
This water has gone too far
Come closer, come waste your time with me
Move slowly, don't wake the child
There's so much more than the eye can see
Your mother is far too wild, too wild
There's water outside a dozen cans
This water has gone too far
