

I'm a girl guess you know I am
Talking fast in a way that's making you mad
Take it there, take it anyhow
I'm calling
She's a leach and a cryin' shame
Being there in a most embarrassing way
I've seen her looks, I have seen it all
It's dawning
Did you know she was always here
As a friend, as a girl with mother who cares
See her mom, see her everywhere
Raspberry brown, trade guns for a smile
Strawberry clown, make love for a while
Raspberry brown, trade guns for a smile
Strawberry clown, make love for a while
I'm a girl guess you know I am
Talking fast in a way that's making you mad
Take it there, take it anyhow
I'm calling
Calling, calling
