

Summerdaze

Daryll-Ann

The sky and the sea, girl my burning desire
Been tryin' to leave this town for such a long time
Since you are gone
The boats in the harbor, the stars in the night been longing fo
r the beach for such a long time
Long time gone
And the music's over, still the drums are playing loud
This is the place I'd like to settle down
Where the wind meets his mary over by the shoreline
All day long
This should be my world, my only one
Been tryin' to leave this town for such a long time
Since you are gone
And the music's over, still the drums are playing loud
I believe morningrain will hit you in the mind
Still I feel to cool my senses time and time again
And the music's over, still the drums are playing loud
I believe morningrain will hit you in the mind
Still I feel to cool my senses time and time again
I believe morningrain will hit you in the mind
Still I feel to cool my senses time and time again
