

Beyond the World

Darzamat

I flew on wings of the night
To find the place beyond the world
And so close I was
And so strong I felt

But only the hand touched
And in forbidden caves I found myself
Looking for the key
To the gate of a place beyond the world

And even nymphs dancing around me
Laughed at my melancholy

This day, this night,
I fly beyond the world
Hanging between the worlds
Sailing in dark air
Towards the place beyond the world
