## Tonight

Tonight won't be like any night The stars will shine and only for you tonight Tonight we'll bring the highest highs Just you and me will talk till the morning light Tonight won't be like any night I love to spend my lonelyness by your side Tonight I wanna hold you tight I wanna do it right I wanna change your mind I wanna hold you tight I wanna hold you tight Tonight won't be like any night The stars will shine and only for you tonight Tonight we'll bring the highest highs Just you and me will talk till the morning light Tonight won't be like any night I love to spend my lonelyness by your side Tonight I wanna hold you tight I wanna do it right I wanna change your mind I wanna hold you tight I wanna hold you tight Tonight Tonight won't be like any night The stars will shine and only for you tonight Tonight we'll bring the highest highs Just you and me will talk till the morning light Tonight I wanna hold you tight I wanna do it right I wanna change your mind I wanna hold you tight I wanna hold you tight
