

## Hold On

## Dashboard Confessional

She had a history of killing herself  
I had a habit of dying  
I think she gave me something to live for  
I guess I helped her pass the time

And I had a vision of seeing things straight  
She had the heart of a liar  
I never saw her leave me once  
She never felt me beside her

It's cruel but she's got a good hold on me  
It's cruel but she's got a good hold on me  
It's cruel but she's got a good hold on me  
It's cruel but she's got a good hold on me  
It's cruel but she's got a good hold on me  
It's cruel but she's got a good hold on me

She had a history of killing herself  
I had a habit of dying  
I think she gave me something to live for  
I guess I helped her pass her time

And I had a vision of seeing things straight  
She had the heart of a liar  
I never saw her leaving me once  
She never felt me beside her

It's cruel but she's got a good hold on me  
It's cruel but she's got a good hold on me  
It's cruel but she's got a good hold on me  
It's cruel but she's got a good hold on me  
It's cruel but she's got a good hold on me  
It's cruel but she's got a good hold on me
