Hold On

Dashboard Confessional

She had a history of killing herself I had a habit of dying I think she gave me something to live for I guess I helped her pass the time

And I had a vision of seeing things straight She had the heart of a liar I never saw her leave me once She never felt me beside her

It's cruel but she's got a good hold on me It's cruel but she's got a good hold on me It's cruel but she's got a good hold on me It's cruel but she's got a good hold on me It's cruel but she's got a good hold on me It's cruel but she's got a good hold on me
