

Love

Daughter

I can't forget it
Though I've tried
I know you regret, love
You told me so many times

But, I still wonder
Why...
You left with her
And left me behind

Take your hands off him
Cause he's the only one that I have ever loved
Please don't find her skin
When you turn the lights out

I can't erase it
From my mind
I just replay it, love
I think of all of the time

But I don't want to imagine
Words you spoke to her that night
Make your bodies look like porcelain
You both knew I'd be bleeding inside

Did she make your heart beat faster than I could?
Did she give you what you hoped for?
On nights so loveless, love
I hope it made you feel good
Knowing how much I adored you

Did she make your heart beat faster than I could?
Did she give you what you hoped for?
On nights so loveless, love
I hope it made you feel good
Knowing how much I adored you

You're making me sick, love
