

# Feels Like Tonight

Daughtry

You got me  
Thinking it I'll be alright  
You, you told me  
"come and Take A look inside"  
You believed me  
In every single lie  
But I failed you this time

R: And it feels like tonight  
I can't believe I'm broken inside  
Can't you see that there's nothing that  
I wanna do  
But try to make it up to you?  
And it feels like tonight  
Tonight

I was waiting  
For the day you'd come around  
I was chasing  
And nothing was all I found  
From the moment you came into my life  
You showed me what's right  
(repeat chorus)

I never felt like this before  
Just when I leave, I'm back for more  
Nothing else here seems to matter  
In these ever changing days  
You're the one thing that remains  
I could stay like this forever

R:

And it feels like tonight  
I can't believe I'm broken inside  
Can't you see that there's nothing that I wanna do  
But try to make it up to you?  
And it feels like tonight  
Tonight  
Tonight  
Cause there's nothing that I wanna do  
But try to make it up to you  
And it feels like tonight
