

Renegade

Daughtry

Don't you wanna feel like a rebel
A renegade on the run
A real live wire in the crossfire riding shotgun

Not talking about a deal with the devil
I said nothing about selling your soul
But call it what you will
If you start to feel out of control

Here we go

Can you hear the sound of the turning wheels
Burning the road like its never been done
I'm breaking out of this town like a renegade
So baby get ready to run
Don't have any time here left to kill
I don't wanna go down like the setting sun
So let's break out of this town like a renegade
Can't wait another minute
I'm right here ready to run

Don't you wanna feel like a rebel
A renegade on the run
A real live wire in the crossfire riding shotgun

One-hundred miles an hour with the top rolled down
Racing in the wind, breaking outta this town
Trying to get lost, but don't want to be found

Here we go
Here we go

Can you hear the sound of the turning wheels
Burning the road like its never been done
I'm breaking out of this town like a renegade
So baby get ready to run
Don't have any time here left to kill
I don't wanna go down like the setting sun
So let's break out of this town like a renegade
Can't wait another minute
I'm right here ready to run

I'm gonna ride the night, Ride the night, yeah
Gonna ride tonight
(Gonna ride tonight)
Gonna ride tonight
(Gonna ride tonight)
Gonna ride tonight, Hey!
Gonna ride tonight

Can you here the sound of the turning wheels
Burning the road like its never been done
I'm breaking out of this town like a renegade
So baby get ready to run
Don't have any time here left to kill
I don't wanna go down like the setting sun
So let's break out of this town like a renegade

Can't wait another minute
I'm right here ready to run

I don't wanna go down
So let's break out of this town like a renegade
Can't wait another minute
I'm right here ready to run
