

Butterflies

Dave Barnes

Baby, something is happening here
Though it's not perfectly clear, I think I like it
Baby, my heart and brain can't agree
On the status between you and me
And where we're standing

And I can't tell you what it is but
It's the best thing that I found yeah
The butterflies in my stomach
And my feet off the ground
So for now I'm saying, let's just call this love
Let's just call this love

Maybe, I'm over reacting a bit
Blame it on all this and quit
And start all over
Maybe, you might just feel the same way
Practicing both of our names
Just to giggle

And I can't tell you what it is
But it's the best thing that I found you
The butterflies in my stomach
And my feet off the ground
For now I'm just saying, let's just call this love
Let's just call this love
(X2)
