

# I Have And I Always Will

Dave Barnes

Darling, we're both scared  
But where love is, fear won't tread  
All of these friends here agree  
We're right where we should be

Underneath all you're white  
My Lady, My Love, My Bride  
In your darkest hours  
Will I love you still?  
I have and I always will

I guess it's because I just do  
Following heaven's clues  
This is a big mystery  
How I found you found me

Underneath all you're white  
My Lady, My Love, My Bride  
In your darkest hours  
Will I love you still?  
I have and I always will

And you are changing now  
Your part of me somehow  
And I will never be alone

In your darkest hours  
Will I love you still?  
I have and I always will  
I have and I always will
