

# Little Lies

Dave Barnes

Everything is beautiful  
Cotton fields, the open road  
Your radio plays a song  
We both know, we don't sing along

La la la la la la  
These little lies  
La la la la la la  
These little lies (2x)

Words can be daffodils  
Or a fire in an open field  
I'm sitting here in the ash  
Stupid words, I can't take back

La la la la la la  
These little lies  
La la la la la la  
These little lies (2x)

There's a devil on my shoulder, babe  
And I believe too many things he says  
I'm fighting these fears as I find the truth  
And I'm sorry for hurting you

La la la la la la  
These little lies  
La la la la la la  
These little lies
