

# Loving You, Loving Me

Dave Barnes

It's just me and you and the moonlight baby  
I'm staring at you staring at the stars tonight  
Someday felt so hard it disappeared and you and I can start this evening right  
What I say out loud is only whatever is in my head  
Tonight I would rather look at you instead

I can't get enough of you, everything little thing you do  
You, the night, and this candlelight is all I really need  
It's loving you loving me

Dogs are barking in the yard a few feet away and TV in the den is on CNN  
Seemed to me these clouds were showing rain but nothing can change this mood I'm in  
What I say out loud is only whatever is in my head  
Tonight I'd rather look at you instead  
I can't get enough of you  
And every little thing you do  
You the night and this candlelight is all I really need  
Loving you loving me

I've been all day waiting for you to come back home now I appreciate that will never be alone baby  
What I say out loud is only whatever is in my head  
Tonight I'd rather look at you instead  
And I can't get enough of you  
And every little thing you do  
(rpt.1)  
You the night and this candlelight is all I really need  
Loving you loving me  
Loving you loving me  
Loving you loving me  
Let's get together and start a family  
Loving you loving me baby  
Loving you loving me baby you know I'm never gonna go away  
Loving you oh loving me oh baby
