

# You Do The Same For Me

Dave Barnes

Tell me everything  
'Cause I can see it in your eyes  
There's a story there these tears won't tell me why  
Oh and don't be strong  
Isn't that what got you here  
Wanderin' in this dark alone  
Among your fears

Let me know what I can do  
To bear this weight here with you  
You do the same for me  
Oh you do the same  
You're the blood when my heart won't beat  
Oh you do the same  
So I hold the light in this night  
So your eyes can see  
You do the same for me

This circumstance  
It is such a common thing  
We're all butterflies  
With broken wings

Let me know what I can do  
To bear this weight here with you  
You do the same for me  
Oh you do the same  
You're the blood when my heart won't beat  
Oh you do the same  
So I hold the light in this night  
So your eyes can see  
You do the same for me

Life will never leave us alone  
So I'll never leave you alone

You do the same for me  
Oh you do the same  
You're the blood when my heart won't beat  
Oh you do the same  
And I hold the light in this night  
So your eyes can see  
You do the same for me

You do the same, the same for me
