

First Kiss

Dave Days

She's walking over to me I'm too scared to move or look in her
eyes
She wants to see me tonight
I'm counting down the minutes they pass like hours stuck in time
Stomachs filled with butterflies

(Is it cool if I kiss you)
I'm counting on chances
(Is it cool if I kiss you)
I'm waiting on time

Is it cool if I kiss you now maybe some way some how
Tell me that you want me more than I know
Hold your breath we don't need to know whats next
I just want to live this moment with you tonight

Can't sleep can't wait to wake up, no I can't wait to start my
day
Knowing I will see your face
Over thinking feeling nervous hope I don't slip and screw this
up
Worst of all I'd fall in love

Bridge:
I want to live this moment with you
I want this moment to last forever
(Is it cool if I kiss you)
