

Olive You

Dave Days

Can't get the words out of my mouth
That little feeling everyone talks about
The things you say like I miss your face
I wanna let you know but I can't get the words to go so

Olive you and everything you do
What two words can mean afraid to say the other three
Olive you the words are coming true
I don't know what to say but olive you

Can't fight the feeling I feel inside
I try to tell you but I always hide
The things you say like I want you to stay right
Here by my side and let the words slide

Olive you and the little things you do
What two words can mean afraid to say the other three
Olive you the words are coming true
I don't know what to say but olive you
(Olive you olive you olive you)
(Olive you olive you olive you)
(Olive you olive you olive you)
(Olive you olive you olive you)

You wanna tell me but I don't know how to say it
I'll let it out what's been on my mind
Those two words need an I love...

I love you and everything you do
These two words mean what I meant to say with three
I love you never felt so smooth
All I can say is I love you

(Olive you olive you olive you)
I love you
(Olive you olive you olive you)
I love you
(Olive you olive you olive you)
I love you
(Olive you olive you olive you)
I love you
