

Out Of The Box

Dave Days

There's another side of me
Not always speaking so sarcastically
The lights turn off
The wall goes down
And my mind has been set free
Open to all possibilities
Whoa

So let's joke around, say we don't believe
But it just might surprise us if we see
Yeah we all do what you do
Yeah we've tried it
We're getting closer, getting closer
Yeah we like it

'Cause this is where we want to be
I'm jumping out of the box to this world we belong
Where all my thoughts become reality
So let's get higher, get inspired
Let the world take over me

Let's talk about what we can't explain
And in the end we'll feel like we have changed
Yeah we still have questions so let's find the answers
Let's make a discovery

'Cause this is where we want to be
I'm jumping out of the box to this world we belong
Where all my thoughts become reality
So let's get higher, get inspired
Let the world take over me

(Whoa, whoa, whoa)

'Cause this is where we want to be
I'm jumping out of the box to this world we belong
Where all my thoughts become reality
So let's get higher, get inspired
Let the world take over me

So let's get higher
