

Tube It

Dave Days

Off like a rocket, and now you can't stop it
Chad and Steve wrote a song
You can post a video, you can be the star
Everyone will watch you, no matter who you are
Now the world will see it, and seein' is believin'
Believe it or not, but you can bet we're never leavin'
It's power to the people, cuz' I got the power
My 15 minutes just turned into an hour

Revolution's everywhere, I can smell the fear
Media moguls look out 'cuz we're here
Changing the world in a whole new way,
Everybody stand up (no thanks)

Tube it, tube it, everybody doing it
Make a video and let your mind flow
Around the world it's all the craze

We know we got the power but what're we gonna do
We know we want to change the world but what do we wanna change it to
We gotta stop the killin', we got to feed the kids,
We know we can't look away and leave it like it is

Revolution's everywhere, I can smell the fear
Media moguls look out 'cuz we're here
Changing the world in a whole new way
Everybody stand up
