

## Back In Circulation

Dave Dudley

Got my heart patched up my goodnight sleep and my dancin' slippers on

I'm diggin' up where I left off when lovin' you went wrong  
You'll notice I'm all smiles again and out of hibernation  
Gonna hit those moonlit lanes again I'm back in circulation  
Don't play the blues for me I want the sunny side of life  
Tell all the gang to meet me here we're gonna swing the night  
Hunt for everything that's wet and start the celebration  
Gonna have myself a ball tonight I'm back in circulation

Put my cryin' towel away sunshine just peeped through the clouds

Gettin' out my little black book checkin' upon my ole crowd  
Tell Mr Moon to shine tonight and make this observation  
I just bounced back from being hurt and I'm back in circulation  
Don't play the blues for me...
