

I Hope I Never Love That Much Again

Dave Dudley

I know just how great love can be I loved so much one time
I know how it hurts to see it end
I've had my share and if I live to be a hundred years
I hope I never love that much again
The bigger the love the harder the fall
And it takes a long time for a heart to mend
If there should ever come a time when I could love at all
I hope I never love that much again

I loved her more than life itself she was everything to me
For I believed in life and love back then
If I can just forget she's gone if her mem'ry sets me free
I hope I never love that much again
The bigger the love the harder the fall...
