Well I'm through hurt and startin' today and here's something I 'd like to say

I know you'll be shocked and surprised but I wish you try this song for size

I won't go down that road anymore I won't go down that road any more

You've had all of me you're gonna get and you ain't had the bes t of me yet

When you want me I'll be hard to find and I'll leave you with this thought in my mind

I won't go down that road anymore I won't go down that road any more

Some things just have to be done and I guess my leaving is won I wish there was other way but I only have one thing to say I won't go down that road anymore I won't go down that road anymore

It's over I'm making my move got my rags in my bag and I'll pro ve

I'm gone like a big mocking bird make sure you'll remember my w ords

I won't go down that road anymore I won't go down that road any more

I won't go down that road anymore I won't go down that road any more
