

If I Had One

Dave Dudley

I've journeyed over the mountains just like that famous bear
I didn't realize it wouldn't get me anywhere
And now I'm tired of roaming this life is not much fun
I'd like to go home, if I had one

I've known all kinds of women, the rowdy and the nice
I've even thought of marriage, but I've never thought of that twice
And now, I feel the loneliness with every setting sun
I'd love to see my baby, if I had one

I've made a lot of money, I've also spent a lot
I've thought a man was judged by the money that he got
But money will not take me back to days when I was young
I guess my heart would break, if I had one
I guess my heart would break, if I had one
