

If You're Afraid To Tell Him I Will

Dave Dudley

You say you love me more than anything in this whole world
For my love you'd beg and borrow or steal
Then why don't you tell the one you look you love me more than
him
If you're afraid to tell him I will
I'll tell him of the times we met in the shadows of the town
I'll tell him how many times I tried to tear his whole world do
wn
For I love you more than the birds could love the flowers on th
e hill
And if you're afraid to tell him I will
Could it be you've been seeing me and my love has been at ease
It hurts to know that you may love him still
I've just got to know to ease this tickin' deep within my heart
And if you're afraid to tell him I will
