If You're Afraid To Tell Him I Will

Dave Dudley

You say you love me more than anything in this whole world For my love you'd beg and borrow or steal Then why don't you tell the one you look you love me more than him If you're afraid to tell him I will I'll tell him of the times we met in the shadows of the town I'll tell him how many times I tried to tear his whole world do wn For I love you more than the birds could love the flowers on th e hill And if you're afraid to tell him I will Could it be you've been seeing me and my love has been at ease It hurts to know that you may love him still I've just got to know to ease this tickin' deep within my heart And if you're afraid to tell him I will
