

Then I'll Come Home Again

Dave Dudley

When I see the water come and clear beside a shore
When all the guns are silent and the sky is clear once more
When the bugles fill the air with victory's sweet song
That's when I'll come back home where I belong
Then I'll come home again then I'll come home again
When I have done my duty in this foreign land
When I have fought and done my job for Uncle Sam
Then I'll come home again then I'll come home again

When I see the flag of freedom flying o'er this land
When the people here are free to live their lives again
When the Captain tells me the battle has been won
Tell all my friends then I'll be coming home
Then I'll come home again...
Then I'll come home again then I'll come home again
