Through Hell And Half Of Georgia

Dave Dudley

Down in Macon Georgia there's a woman waitin' for my six foot f rame

I got her picture in my mind as I head down the turnpike out of main

I'd better think of something else or I might stick my rifle th rough the floor

I'll go through hell and half of Georgia till I hold her in my arms once more

Now I don't mean no disrespect to the states I travel through a ll the time

I just get awful anxious till I put myself back on that Georgia line

Roadsigns they all look the same until I see those Macon City lights

I been through hell and half of Georgia but she'll make it wort h my life tonight

I coast down through grapevine a glass of it they call a load of wine

I know I oughta sleep some but baby's hot and heavy on my mind Don't need no help to get me back and I won't lose no time alon g the way

That old Jimmy understands that if we're runnin' late there'll be the devil to pay

Took on the fuel in Nashville and Chattanooga's what the last sign said

My hardest drivin's over and the half of Georgia's lyin' straig ht ahead

I've breezed straight to Atlanta and only have a few more miles to go

I've gone through hell and half of Georgia now I can count the minutes till I'm home

Ah look at all them pretty Macon City lights

And I'm thinkin' about that pretty Macon chicks whose gonna mak e my night tonight

And the second thing I'm gonna do is shut off my rig easy big g uy
