

## Trucker's Prayer

Dave Dudley

Thank you Lord for all the miles without an accident  
But I wanna ask one more favor before my life is spent  
Please Lord this once before I turn to dust  
Let me run the wheels plumb up a Greyhound bus  
You know I have been running these highways in this old rig for  
a long long time  
And I have been humiliated by them dang buses till it's a crime  
Well even when I'm empty gettin' all that she's gotten high  
They're blowin' their horns and flash them lights on just fly o  
n by  
But you know if I had me a rig I'd do about a hundred under the  
great big load  
Well I'd wind her up tight and I'd blow me one of them grey dog  
s plumb off the road  
So Lord before my last run to the foot of them mighty golden st  
airs  
I hope there'll be an answer to this poor old trucker's prayer  
So thank you Lord for all the miles without an accident  
But I want to ask one more favor before my life is spent  
Please Lord this once before I turn to dust  
Let me run the wheels plumb up a Greyhound bus
