

# Something Happens

Dave Edmunds

Hiatt

I get jumpy, wanna step on the gas  
Drive right out of this place fast  
She says: 'Red light, I'll take those keys'  
Out of my mind and on my knees.

Something happens and I don't know why  
I can't seem to get my future out of my eyes  
Something happens and never for sure  
If I could name this sickness, I'd be cured, I'd be cured.

She's long distance and it's a grind  
Always static on that line  
Tear the phone out from the wall  
But in my head I get that call.

Something happens and I don't know why  
I can't seem to get my future out of my eyes  
Something happens and never for sure  
If I could name this sickness, I'd be cured, I'd be cured.

She don't wanna talk, she don't wanna talk to me  
She just wanna look, she just wanna look through me.

It's a famine or it's a feast  
Who's that beauty? Who's that beast?  
Threatening murder or happiness  
And if I do it, will I confess?

Something happens and I don't know why  
I can't seem to get my future out of my eyes  
Something happens and never for sure  
If I could name this sickness, I'd be cured, I'd be cured, I'd  
be cured.
