Dave Edmunds

Weel At the end of every working day  
I hurry almost fast as I can

Grab myself a bite,  
Cause since you left me I'm lonely man

I cracked a can of something  
Settle down in my chair

And from that moment 'till the spot disappears  
Man, I could be anywhere

R : I'm plugged in my television,  
switchin' on, television,  
to the me, television,  
'll never flame

I'm lookin' at , television,  
like a cat, television,  
my little sad, television  
'll never quit

Let me tell you  
I don't care what's on,  
If it's happy or sad,  
but don't give a damn if it's good or bad,  
I sit and watch it till that drives my mad  
just as long as it's on I'm glad

Now everybody that I used to know  
they never come around no more  
I don't go out either  
'cause I ain't got no place to go

You see my best friend has been livin' in  
ever since you've been gone  
all I gotta do is activate that tube  
and I don't have to miss you no more

R : I'm plugged in my television,  
switchin' on, television,  
to the me, television,  
'll never flame

I'm lookin' at , television,  
like a cat, television,
