

Bitter Apple

Dave Gahan

Days long gone
And lost hot nights
No crowded streets to walk tonight
Still the stars shine so bright
Don't need a coat I'll be alright

Then you walked into my life
Halo bright with dark brown eyes
Just standing in her light
Remembered love again that night

Bitter apple take a bite
(It's kind of wonderful)
Fallen star you're mine tonight
(Strange but beautiful)
Bitter apple take my life
(It's kind of wonderful)
If I close my eyes you're mine tonight
Tonight

We laughed so hard it caused some pain
Two strangers standing in the rain
We smoked our cigarettes
(It's kind of wonderful)
Exchanging our regrets
(Strange but beautiful)
