

Goodbye

Dave Gahan

It isn't very hard to see
From where I stand there's no one to blame
I opened up my eyes to see
A world with so much pleasure not pain
As she looked into my eyes
I knew I might not see her again
We're changing and it's hard for me to stay the same

She answers all the questions
Things I find so very hard to say
As I close my eyes I heard her whisper goodbye

All these questions that I'm asking
Feel very foolish anyway
[Goodbye]
As I turned the corner
I heard her whisper again
[Goodbye]
It's what she said
[Goodbye]
It's what she said
It's what she said

I loved her from the first time we kissed
She tastes so great
she, lit another candle and slowly
fell into the flame

She, answers all the questions
things I find so very hard to say
(she) as I closed my eyes
I heard (her) whisper
Goodbye
all these questions that I'm asking
feel very foolish anyway
goodbye
as I turned the corner, I heard her
whisper again
goodbye

It's what she said
goodbye
it's what she said
goodbye
It's what she said
it's what she said
it's what she said

Goodbye
