My Feelin's

Dave Hollister

Girl I know I've done you wrong before
Jeopardized our love
With thoughts of you walking out the door
Realized it's too late-what I've done to us
And if I can't have you now I can't go on
I can't imagine living on what used to be
Knowing that I just lost baby the best part of me
If I had half a chance to do it all again
I'll never ever break up a happy home between friends-ooooh my

My feelings have taken over
What do I do now
I don't know
Girl I know that I've hurt you
But what can I say now
Please don't go

These cold lonely nights that I'm left here without you
I promise baby what's wrong I'll make it right for you
They'll be no mre lies no more games
This hurting feelings driving me insane
Cause I can't live my life
Baby I'm lost without you (without you)

Girl the way you make me feel
When you say to me
You can't go on
I never wanted to hurt you
Just wanted to fulfill every one of your needs
Your my everything
I took you for granted and you took your love away
But I need you right here with me
(Please don't go- come on home baby)

Baby whatever you need
Whatever you want from me
Baby your my everything
Whatever you want from me
Baby your my everything

Girl you know your my everything
