

One Addiction

Dave Hollister

I got this problem and it's somethin' that I can't control
Shortie's street name is Smoke
She had me hit from just a kiss and now she's in my soul
Intoxicatin', yeah, yeah, yeah

My heart is failin', deep inhailin', baby's burnin' my nose
Damn near had an overdose, I need rehabilitation
I must admit, I'm shook 'cause shortie's got me hooked

Floatin' like a butterfly, I'm still high from the Smoke
Feel like I can touch the sky, girl, your dope makes me choke
Feels so good I wanna cry, let me take one more toke
I'm mad in love, just one addiction

Floatin' like a butterfly, I'm still high from the Smoke
Feel like I can touch the sky, girl, your dope makes me choke
Feels so good I wanna cry, let me take one more toke
I'm mad in love, just one addiction

She's got my world spinin' upside down
Man, I'm so high my feet can't even touch the ground
I'm paranoid, I think I'm gonna lose my mind
My lips are burnt because I smoke her all the time

This Philly's got me feenin, twisted, reminiscin'
'Bout her ebony face, I need rehabilitation
I must admit, I'm shook 'cause shortie's got me hooked

Floatin' like a butterfly, I'm still high from the Smoke
Feel like I can touch the sky, girl, your dope makes me choke
Feels so good I wanna cry, let me take one more toke
I'm mad in love, just one addiction

Floatin' like a butterfly, I'm still high from the Smoke
Feel like I can touch the sky, girl, your dope makes me choke
Feels so good I wanna cry, let me take one more toke
I'm mad in love, just one addiction

She's really got me feenin, put that thing on me
She got my eyes so close together I can hardly see
She got me talkin' crazy, walkin' funny, staggerin'
I can't get enough

Now can't no other Philly do me like you do
I don't need nobody else 'cause, girl, I'm into you
These brotha's really wanna smoke on my shortie too
I'm not passin' you

Floatin' like a butterfly, I'm still high from the Smoke
Feel like I can touch the sky, girl, your dope makes me choke
Feels so good I wanna cry, let me take one more toke
I'm mad in love, just one addiction

Floatin' like a butterfly, I'm still high from the Smoke
Feel like I can touch the sky, girl, your dope makes me choke
Feels so good I wanna cry, let me take one more toke
I'm mad in love, just one addiction

Floatin' like a butterfly, I'm still high from the Smoke
Feel like I can touch the sky, girl, your dope makes me choke
Feels so good I wanna cry
