

## Baby Please

Dave Mason

I think I'll lose an hour or two  
With you beside the water  
Don't lose time in bringing me  
That good thing that you ought to

Baby... please  
You've got me scraping my knees  
Baby... please  
Please, please, don't make me go back to the freeze

Every time that I try to connect girl  
Well, it seems that your line is engaged  
I'm a slave to the way that you move me  
I'm a puppy dog wagging my tail

Baby... please  
You've got me scraping my knees  
Baby... please  
Please, please, don't make me go back to the freeze

Staring out of windows like a helpless child  
Pouring down the whiskey like it's goin' out of style  
Trying to tell myself that everything is fine  
In a big rubber room with a silver spoon still on my mind

Well, I'm pacing the floor like a tiger  
Living nights that have passed into days  
Looking over my shoulder  
To catch anything coming my way

Baby... please  
You've got me scraping my knees  
Baby... please  
Please, please, don't make me go back to the freeze
