## **Baby Please**

**Dave Mason** 

I think I'll lose an hour or two With you beside the water Don't lose time in bringing me That good thing that you ought to

Baby... please You've got me scraping my knees Baby... please Please, please, don't make me go back to the freeze

Every time that I try to connect girl Well, it seems that your line is engaged I'm a slave to the way that you move me I'm a puppy dog wagging my tail

Baby... please You've got me scraping my knees Baby... please Please, please, don't make me go back to the freeze

Staring out of windows like a helpless child Pouring down the whiskey like it's goin' out of style Trying to tell myself that everything is fine In a big rubber room with a silver spoon still on my mind

Well, I'm pacing the floor like a tiger Living nights that have passed into days Looking over my shoulder To catch anything coming my way

Baby... please You've got me scraping my knees Baby... please Please, please, don't make me go back to the freeze
