

# It's Like You Never Left

Dave Mason

There's a dream keeps returning  
Like the rain to the sea  
There's a fire ever burning  
In the souls of the free

There's a lifetime of learning  
But before you can rest  
Take a look at yourself, boy

It's like you never left  
It's like you never left  
It's like you never left

I feel some confusion, when I'm not with you  
Well I've got to get back  
Where it's green and it's blue

There's a part of me learning  
That it's all been in jest  
At the end of your journey

It's like you never left  
It's like you never left  
It's like you never left  
It's like you never left never went away
