

# One Day

Dave Mason

I know it's unbelievable  
And I know it seems unthinkable  
There's a place I wanna meet you  
There's a place, a place we got to, got to, got to  
Need to, got to, got to

Baby, one day we'll fly in the ocean  
One day we'll swim in the sky  
Someday I won't ask why, babe  
One day baby, you'll forget about me  
Someday baby, I'll forget about you

You got to hold on to dreams within  
And no one knows how it all ends up  
Hold on, you got to give it some time  
Time enough to make it all in one day

There's a place I wanna meet you  
There's a place, a place we got to, got to, got to  
Need to, got to, got to

Baby, one day we'll fly in the ocean  
One day we'll swim in the sky  
Someday I won't ask why, babe  
Someday baby, you'll forget about me  
One day baby, I will forget about you

I will forget about you  
I will forget about you  
No matter what you do  
I can't forget about you, baby

I know it's unbelievable  
And I know it seems unthinkable  
Need to, got to, got to, got to  
Need to, got to, got to

Baby, one day we'll fly in the ocean  
One day we'll swim in the sky  
Someday I won't ask why, babe  
One day baby, you'll forget about me  
Someday baby, I will forget about you

I will forget about you  
I will forget about you  
No matter what you do  
I can't forget about you, baby  
I can't forget about you, baby

One day  
One day
