

Pink Lipstick

Dave Mason

She's got the face, she's got the body
She's riding high on daddy's money
She's got pink lipstick all around the mouth
She thinks she knows what it's all about

Down on the dance floor, down and dirty
She's a prom queen, she's acting flirty
She's got pink lipstick all around the mouth
She thinks she knows what it's all about

I am in the middle of something
I can't be sure of or hold on
She's a girl, she's much too young
For I'm in trouble deep, she's a woman too

Snake skin, alligator
Car keys, I'll see you later
Wants me to take her on a ripping night ride
She wants to be my baby tonight

She's lost to the music
She knows she's got it and how to use it
She's got pink lipstick all around the mouth
She thinks she knows what it's all about

How can something so good be wrong?
How can this feeling be so strong?
She's a girl, she's much too young
For I'm in trouble deep, she's a woman too

I am in the middle of something
I can't be sure of or hold on
She's a girl, she's much too young
For I'm in trouble deep, she's a woman too

I am in the middle of something
I can't be sure of or hold on
She's a girl, she's much too young
For I'm in trouble deep, she's a woman too

I am in the middle of something
I can't be sure of or hold on
She's a girl, she's much too young
For I'm in trouble deep
