

Come On Come On

Dave Matthews Band

There is a time for holding onto
And there is a time for letting go
You said "Come on let's go outside and then,
I'm gonna make you, I'm gonna make you

Shoot straight into me baby
Cupid's arrow into my heart

Because of you girl, beautiful, beautiful girl
Take it easy on yourself and make it easy on me
'Cause I just wanna make you, I just wanna make you
Come on, come on, come on, come

As if a star sign, just to reflect in your eyes
As if the rain falls, to run down your cheeks to your smile
Look at me like the sun and I'm flying
You look away and I wanna jump out of my mind

Shoot straight into me baby
Cupid's arrow into you babe

Because of you girl, beautiful, beautiful girl
Take it easy on yourself and take it easy on me
'Cause I just wanna make you, I just wanna make you
Come on, come on, come on, come

This is as slow as we go
Oh this great, great
Oh this great, great
Love, it shines
It's great, great
I just wanna love you
I wanna love you
I only want you

'Cause of you girl, beautiful, beautiful girl
Take it easy on yourself, you take it easy on me
'Cause I just wanna make you, I just wanna make you
Come on, come on, come on, come
Come on, come on, come on, come
Come on, come on, come on, come
