

# Come Tomorrow

Dave Matthews Band

Old man spat and cursed as he spoke  
It's all going to hell and the whole world is broken  
Little kid is busy making plans  
Save the whole world along with that old man

It's far as I can see  
A better way for you and me  
Is to let the children run the show  
Not too long and we'd be good to go

All the girls and boys would sing  
Come tomorrow we get everything  
So as long as we survive today

Come tomorrow we gonna find a way  
Yes as far as I can see  
We should let the children lead the way

Bang bang you're dead now could be real  
I got a bag of smoke come on let's make a deal  
Yeah bridges burn but tomorrow is another day  
To feed the world and go outside and play

Yeah farmers farm and dancers dance all night  
Lovers love and the firefighters fight

Let the children run the show  
Not too long and we'd be good to go

All the girls and boys would sing  
Come tomorrow we get everything  
So as long as we survive today

Come tomorrow we gonna find a way  
Yes as far as I can see  
We got to let the children lead the way

Storms will rise out of innocent skies  
Times will change when you let the children play the game

All the girls and boys will sing  
Come tomorrow we get everything  
So as long as we survive today  
Come tomorrow we gonna find a way

All the girls and boys will sing  
Come tomorrow we get everything  
So as long as we survive today  
Come tomorrow we gonna find a way
